

NEWS RELEASE

March 23, 2006

Launch of the New Online One on One Type Flash Game "Magibato No.1!" on the official "Cute Girls Maniax" Game Site Compatible with EZweb Brew (R)!

On Thursday, March 23, 2006, GignoSystem Japan, Inc. (HQ in Chiyoda ward, Tokyo, President&CEO: Keiko Iida) will distribute a new game "Magibato No.1!" on the official EZweb BREW(R) compatible cute girls game site, "Cute Girls Maniax".

The new game "Magibato No.1!" launched this time is a networked one on one type game, where the characters are "registered for battle" and automatically engage in battle through the server.

In this game, the user selects several types of "battle tactics" and weapon items for the female characters appearing in the "Magical Beauty Academy", venue for the battle, and "applies" the character for the battle to the battle server. The character registered for battle is automatically paired up for one-on-one battle with that registered by another user, after which the unfolding battle can be enjoyed in a battle game movie-like flash animation.

Depending on the battle results, users can gain experience values and items to strengthen the character, and bring it up to their chosen type.

By polishing the beauty, magic and fighting skills, the character grades will be increased, and the final goal is to become a student president. Nail-biting excitement lies in wait!
